# Introduction

Crypto is difficult, but it shouldn't be.

Today's cryptocurrency and digital asset activities are already a growing reality and will increasingly become an integral part of our daily lives.

The world as we know it is in a state of constant and accelerated change. The ability to have borderless commerce and communication through the internet has already caused an immeasurable change in the way individuals handle their lives, finance and security. As this digital trend deepens, everyone independent of origin or social status will be given the empowering opportunity to participate in decentralized digital economies powered by blockchain technology and cryptocurrencies.

Decentralized economies powered by cryptocurrencies enable people and businesses to conduct trustless, anonymous and secure transactions across national borders. New opportunities for retail, entertainment, finance and essentially anything else that a person might want to spend fiat currency on, are already available in this digital economy today.

Today we would like to introduce you to Centcex. Centcex is that trusted gateway for blockchain and the emerging decentralized economy, by providing a safer, faster and smarter cryptocurrency experience for all users to enter and thrive in this new decentralized economy. Guided by an integrated and dynamic thinking, our blockchain platform allows users to have access to countless products and services that are indispensable on a daily basis, including exchange, staking, and payment channels and more.

# Centcex is built of 3 elements

Centcex was designed to solve two big issues in crypto today. The crypto security problem and the user experience problem.

Centcex Exchange

Centcex Staking

Centcex Labs

# Centcex Exchange

The Centcex Exchange is a major feature and use case for Centcex Token and its ecosystem of apps. Our exchange enables users to directly trade one coin or token to another, from one coin to another (e.g. BTC to TRX or ETH) with high security, full privacy and unrivaled speed.

The aim behind the exchange is to make it simpler, faster and more convenient for our users to trade cryptocurrencies.

Centcex Spot Exchange was designed for both beginners and advanced traders. Using the latest gRPC technology, we will build one of the most advanced cryptocurrency exchanges in the world, which is capable of providing superior security and intuitive user experience, and able to support 1M+ transactions per second.

# Centcex Staking

Centcex staking allows stakers to earn upto 100% APY from the revenue of Centcex products

Centcex token holders can simply stake the tokens and start earning, Centcex staking options will allow you to stake Centcex token with multiple Staking Pools with rewards in multiple different coins on BSC.

Staking program will be launched after releasing the web version of Centcex Exchange.

# Centcex Labs

In order to develop superior solutions and apps we draw expertise from our own experience of many years of blockchain and software architecture development. We will field and introduce major groundbreaking projects that bring simple and accessible solutions to the Centcex apps; products that are the result of creativity, extensive research and an excellent team that has honed its skills over the past decade. The result will be innovation with usability and purpose.

Centcex is the new home for blockchain innovation

We collect 3% fees from each transaction of Centcex token which will be used for Centcex Labs to build unlimited products for Centcex.

# Centcex Labs Upcoming

## Products

Each product developed by Centcex Labs will be funded by Centcex Token users

# Centcex Token

We believe that having a utility token that powers all of our products and services brings credibility, agility, accountability and independence to our users. It strengthens our relationship with our community and enables dynamic partnership deals. All transactions carried out in the portfolio of apps go through the Centcex Token, directly or indirectly. Centcex is the link between our users and the products and services in the portfolio.

We will do a permanent and continuous job to strengthen this link, since this is what connects us with our users and grows the ecosystem.

# Team

The team behind Centcex has proven experience of building, deploying and updating industry leading products in the crypto space. Working along the ideas behind Centrex, our team is fully decentralized, functions remote and operates worldwide

Due to regulatory & legal issues we would like to stay **anonymous**.

# Future of Centcex

Centcex will in the future be implementing artificial intelligence (AI) and machine learning tools to assist users to become smarter and more informed investors.

The future is a world of endless opportunities and technology allows us to build fantastic paths, unimaginable in the past. The innovative pace allows us to “break barriers” and build on the new standard of normal.

This construction will be relevant if it is connected to the needs and desires of our community of users. Strengthening each link for the common good. We believe that some technologies that are under development will enable major evolutions in our relationships and we will dedicate ourselves to honing these products in the coming years.
